President

[Timothy Hachkowski](#)

Timothy is a creative and technology focused entrepreneur from Lethbridge. Raised in Coaldale, Timothy had an early start with technology and business thanks to key mentors and independent learning. At twelve-years old, Timothy used online tutorials to teach himself how to design and program his own computer games. In high school, the Junior Achievements entrepreneurial programs gave Timothy early success with his first business ventures.

In his early professional career, Timothy worked at a local advertising agency start-up. There he gained valuable experience with real world business pains and growth. Recognizing the growing demand for digital marketing services, Timothy ventured on his own in 2016 to start his first company. Three years later, Timothy exited his marketing company to be a founding member of Sumus Property Group Ltd. a company focused on building community with thoughtful and well-designed real estate investments.

Outside of work, Timothy spends his time with his young family, learning from mentors, taking online courses, helping other entrepreneurs, and guest teaching at the Lethbridge University and Tecconnect.
