### I. Background, Objectives & Key Deliverable

### Background:

- Economic Development Lethbridge contracted Environics Analytics for an updated Trade Area Analysis Report; this information was last updated in 2016 by Environics Research.
- The takeaways generated for this report are intended to provide deeper insights into the current retail landscape, enhancing understanding of consumer behavior and demographic landscape.
- Environics Analytics data-centric approach to Trade Area analysis ensures the figures provided reflect an accurate depiction of consumer retail activity. Additionally, insights from visitors to various retail corridors was used to define the size and boundaries of the Trade Area.

### **Objectives:**

- Economic Development Lethbridge seeks an updated study to provide deeper insights into the current retail landscape, enhancing understanding of consumer behaviour in the area and supporting the sector's growth and evolution.
- The report aims to provide an update of the geographic boundaries that encompass the Trade Area, as well as a refresh of the population and retail information.
- Additionally, for those visiting from outside the City of Lethbridge, the goal is to gain detailed insights into demographics, visitation, spending behaviours, and shopping preferences.

### Deliverables:

 The Trade Area Analysis report includes the methodology for Trade Area creation, a demographic, visitation and an annual spending overview of the Lethbridge Trade Area household population, detailed demographics and shopping behaviors of the household population residing outside the City of Lethbridge, and the geographical distribution of the household population within the Lethbridge Trade Areas.

### II. Methodology: Defining & Mapping the Lethbridge Trade Areas

### A. How EA Defined Updated Lethbridge Trade Areas:

- 1. EA conducted a MobileScapes<sup>1</sup> analysis using the following criteria to gather visitor records.
  - a. *Five Retail Corridors<sup>2</sup>:* West Lethbridge Crossing, Park Place Mall, Downtown Lethbridge, Center Vill Mall Plaza, North Lethbridge Walmart Plaza

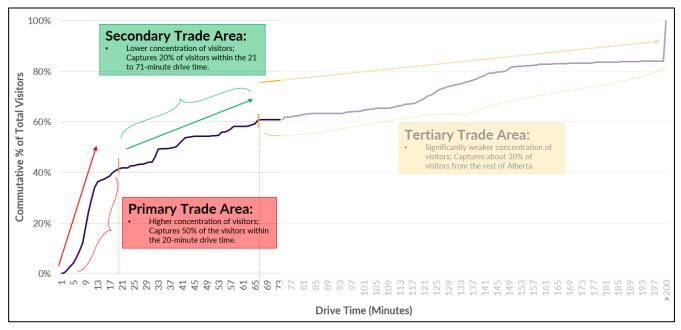

### Image 1. Geofences – Lethbridge Retail Corridors

- b. The Mobilescape analysis was conducted for the period from September 1, 2023, to September 15, 2024.
- c. EA created an aggregated data file of visitor records extracted from the Mobilescape analysis for the previously listed locations and timeframes.

<sup>&</sup>lt;sup>1</sup> MobileScapes is Canada's most comprehensive and up-to-date mobile movement database that successfully combines high-precision consent-based mobile app location data with geo-location data from phones on the cellular network, which is also consent-based.

<sup>&</sup>lt;sup>2</sup> The polygon that comprised the South Mayor Magrath Corridor exceeded the MobileScapes area criteria, and their records did not impact the Trade Area creation. Environics Analytics analyzed the components of this area and found no material difference from the boundaries established using the other retail corridors.

- EA then used the visitor records to identify updated geographic boundaries (the term "Trade Area" for these geographical boundaries is used in the rest of the report).
  - 3. Based on the concentration of visitors by drive-time minutes, EA selected the following Trade Areas of interest for the *Economic Development Lethbridge*.

#### Image 2. Distance Decay Used to Determine Lethbridge Trade Areas

- a. The City of Lethbridge
- b. Primary Trade Area

**ENVIRONICS** 

- c. Secondary Trade Area
- d. Tertiary Trade Area (Not part of the analysis)<sup>3</sup>

5

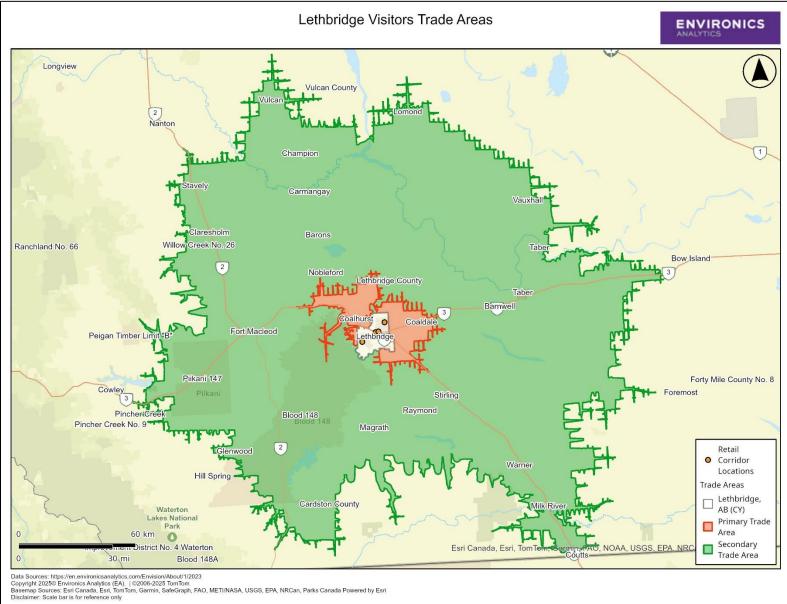

<sup>&</sup>lt;sup>3</sup> Different to the 2016 Trade Area Analysis, this report does not include a Tertiary Trade Area. The reason behind this discrepancy is related to the scattered geographical distribution of visitor records beyond the Secondary Trade Area boundary that from a spatial analysis perspective did not allow to define a precise boundary.

### B. Lethbridge Trade Areas Map

The map includes:

- 1. The City of Lethbridge (White)
- 2. The Primary Trade Area (White and Red)
- 3. The Secondary Trade Area (Green)

### Image 3. Map of Lethbridge Trade Areas

### III. Lethbridge Trade Areas Demographics and Visitor Overview

#### A. Lethbridge Trade Area Household Population<sup>4</sup>

The total household population of the Trade Areas consists of 183,736 people, which includes:

- 102,267 individuals from the City of Lethbridge
- 19,826 individuals from the Primary Trade Area (excluding the City of Lethbridge)
- 61,643 individuals from the Secondary Trade area (excluding the City of Lethbridge and the Primary Trade Area)

The combined non-Lethbridge trade area household population is recorded at 81,469.

#### B. Lethbridge Daytime Population<sup>5</sup>

Lethbridge's daytime population is estimated at 105,538, which is 20,718 more than its total household population of 15+ (eligible working population) of 84,820. This increase is due to commuters coming into the city for work.

<sup>&</sup>lt;sup>4</sup> The household population represents the residential population, which is slightly less than the total population (or Census population) because the latter includes both households and institutional residents. This report uses the household population as it aligns with the household spending data discussed in Part IV.

<sup>&</sup>lt;sup>5</sup> The daytime population includes employed individuals (including employed residents in the area) and excludes students, shoppers, and other daytime visitors.

### C. Lethbridge Retail Corridors Visitors

#### 1. Visitation Overview:

The Lethbridge retail corridors accommodated **14.9 M total visits** from **157.8 K total visitors** over 54 weeks (September 1st, 2023, to September 15th, 2024), which includes:

- 1. 96.6 K visitors from the City of Lethbridge who visited 11.7 M times.
- 2. 14.5 K visitors from the Primary Trade Area who visited 1.2 M times.
- 3. 46.7 K visitors from the Secondary Trade Area who visited 2.0 M times.

Visitors to the Lethbridge retail corridors predominantly preferred visiting during **midday (12 PM – 3 PM)**, accounting for 26% of their total visits. Additionally, 22% of total visits to retail locations originated from outside the City of Lethbridge.

The distance decay analysis confirmed that most visitors to retail corridors are City of Lethbridge residents, with individuals from the rest of the Primary Trade Area following closely behind. Additionally, the analysis indicated that Lethbridge residents are more likely to frequent the retail corridors than those from outside the city.

### 2. Demographic Overview<sup>6</sup>:

- Visitors from the City of Lethbridge Trade Area tend to live in households maintained by younger people (*under 35*).
- These visitors often share a similar cultural heritage. Visitors from the Secondary Trade Area tend to have lower household incomes *(\$100K)* compared to those from the Primary Trade Area *(\$112K)* and the City of Lethbridge *(\$117K)*.
- Additionally, visitors from outside the City of Lethbridge (48 out of 100 households) are more likely to have children than visitors from within city (40 out of 100 households).

<sup>&</sup>lt;sup>6</sup> Demographics were determined from a customer-weighted summary of unique visitors. Displayed metrics based on the highest index and represent the highest likelihood of being held among visitors compared to the Canadian population.

### IV. \$ Spending Overview of the Lethbridge Trade Areas

Non-Lethbridge residents spend \$1.5 billion annually on selected categories<sup>7</sup>; food; tobacco, alcohol, casinos, bingo, lottery; automobiles; clothing, footwear, jewelry; health care and fuel are the largest spending categories.

Total \$ amount spent annually by the households within the Trade Areas on selected categories is approximately \$3.8 billion, which includes:

- \$2.3 billion (60.4%\*) from the City of the Lethbridge.
- \$389 million (10.2%\*) from the Primary Trade Area.
- \$1.2 billion (29.4%\*) from the Secondary Trade Area.

Leading expenditure categories include:

- Food from stores (\$618.1m) and restaurants (\$308.7m): \$926.9 M
- Tobacco, alcohol and casino, bingo, or lottery: \$410.7 M
- Automobiles, Vans and Trucks Purchases: \$309.1 M
- Health care goods, products and services: \$296.1 M
- Gasoline and other fuels: \$251.1 M
- Clothing, footwear and jewelry: \$213.0 M
- Entertainment (Movie Theater, Event/Concert), Rec. facilities, Package Trips: \$201.2 M

Details by categories and Trade Areas are presented on the following page (Table 1). The table data indicates that Lethbridge residents have the highest proportion of annual spending across all categories, followed by residents in the Secondary and Primary Trade Areas.

<sup>&</sup>lt;sup>7</sup> Selected categories include Food, Household Operation, Health Care, Household Furnishings & Equipment, Transportation, Recreation, Personal Care, Clothing, Education, Reading Materials & Other Printed Matter, Tobacco Products and Alcoholic Beverages, and Games of Chance.

# Table 1. Total \$ Spending Across Household Expenditure Categories by Lethbridge Trade AreasHousehold Population

Professional Services: Financial Services, Legal Services	\$53,006,981	\$9,189,696	\$26,787,158	\$88,983,835

### V. Lethbridge Trade Area Population Demographics & Shopping Trends<sup>8</sup>

### A. Demographics

- Excluding residents of Lethbridge Census Subdivision, the population of the Trade Area has a unique age mix. Households in these areas have a mix of younger (below 20) and older (above 69) singles and couples.
- These residents characterize for residing in older, owned houses and earn below-average incomes compared to the average Albertan.
- Approximately 13% of households have Indigenous heritage, representing a significant presence compared to Alberta.

### B. Key Shopping Characteristics

- Residents coming from outside of the city primarily prefer big-box stores for their shopping needs. They like to shop in person at well-known brands such as Canadian Tire, Real Canadian Superstore, and Walmart.
- The preference of residents living outside Lethbridge for large department stores correlates with the longer distances they travel for shopping compared to those living within the city. They may be looking to optimize their trip by not visiting specialized stores and instead going to stores that offer multiple products and services. This behaviour indicates that this population might be receptive to the idea of shopping at commercial plazas or areas with specialized stores for various products and services.
- ~40% of all these residents prefer dining at formal dine-in restaurants, casual/family dining restaurants and/or food courts, opting for a variety of food types such as pizza, Asian, steak, chicken, or sandwich restaurants.
- Boston Pizza and The Keg are the most popular casual dining restaurants for these residents. Additionally, most of them choose McDonald's, A&W, and Subway for fast food. However, there is growing interest in choosing Burger King and KFC as their go-to food options, with visits at above-average rates compared to other Albertans. Tim Hortons remains their go-to place for coffee and gatherings.
- These residents tend to shop in person more frequently than the average Albertan.
- They visit e-commerce websites to check promotions and features before purchasing.

<sup>&</sup>lt;sup>8</sup>This section of the analysis focuses on residents living outside of the City of Lethbridge.

### VI. Population by Geographic Areas (Census Subdivisions) for the Lethbridge Trade Areas

ENVISION

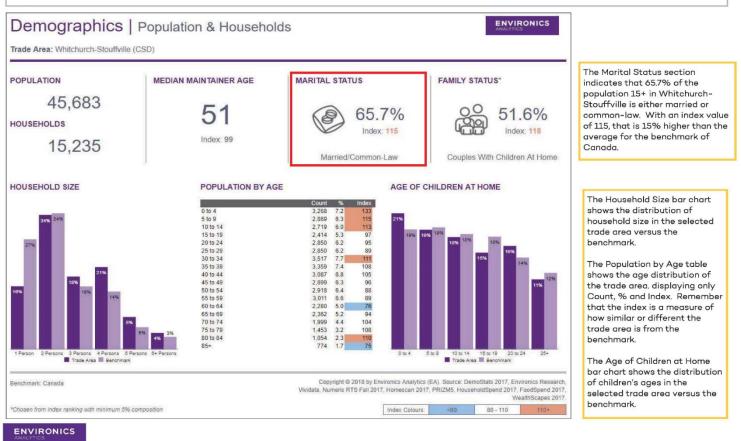

### VII. Appendix

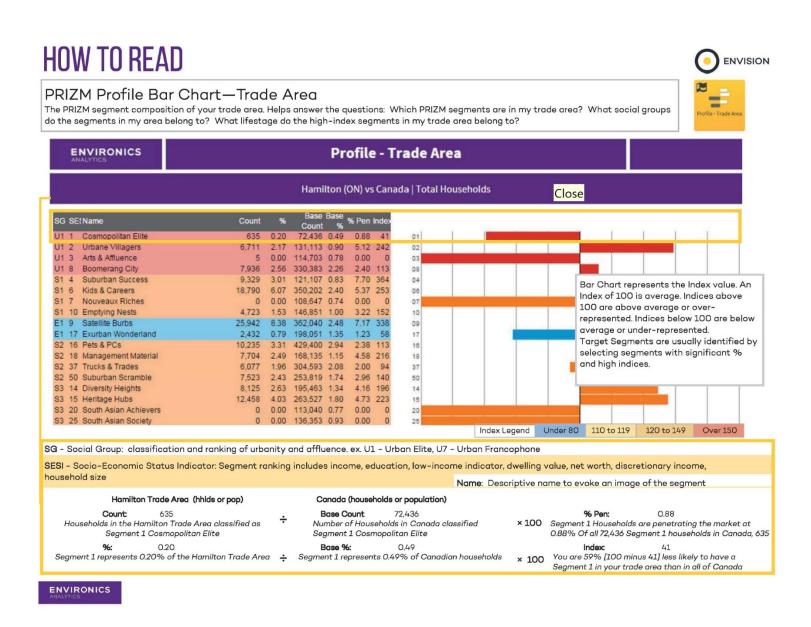

A. How to Read Executive Dashboards:

# HOW TO READ

#### Executive Dashboards - Demographics - Population and Households

Provides population and household data for the current year for the selected trade area. The variables for Population, Households, Median Maintainer Age, and Marital Status (Married/Common Law) will always be present. The variable for Family Status will dynamically show the top variable based on an index ranking with minimum 5% composition.

### PRIZM<sup>®</sup> Profile | Top Segments

Trade Area: PTA + STA

Households: 27,455

# Top 5 segments represent 80.5% of households in PTA + STA

50 COUNTRY COU	Rank: Hhlds: Hhld %: % in Benchmark: Index:	1 10,761 39.20 3.52 <b>1,112</b>	Located in areas close to towns in the western provinces, Country & Western contains a mix of older singles and empty-nesting couples. Nearly a third of maintainers are over 65. Most households live in a single-detached house and a significant portion have an Indigenous identity. With their mixed educations, they earn low er-middle incomes that support active lifestyles. In these rugged communities, residents like to go boating, camping and snow mobiling. With a strong self-reliant streak, they enjoy sewing, crafting and doing home improvement projects. They lead most segments in attending country music concerts and pro hockey games, and doing volunteer work.
AGR-BIZ	Rank: Hhlds: Hhld %: % in Benchmark: Index:	2 5,868 21.37 1.45 <b>1,47</b> 1	Scattered across the Prairies and a few farming communities in Ontario and British Columbia, Agri-Biz is one of Canada's most rustic lifestyles. No other segment has a higher proportion of farmers—nearly one-fifth its labour force —and few have more home-based businesses. Nearly 60 percent of maintainers are between 45 and 75, and most adults have high school or trade school educations. Thanks to dual wage-earners among these couples and families, households earn middle incomes and own single-detached houses. As in other rural segments, residents enjoy traditional country pursuits like baking, sewing and crafting, as well as fishing, hunting and boating. They also take pride in their purpose-driven vehicles: RVs, snow mobiles and ATVs. Civic minded, they often volunteer and donate to charities.
33 NEW COUNTRY	Rank: Hhlds: Hhld %: % in Benchmark: Index:	3 3,202 11.66 4.59 <b>254</b>	Found mostly in Alberta and Ontario, New Country is one of the wealthiest rural segments, with nearly two-thirds of residents working in well-paying agricultural and blue-collar occupations. Forty percent of the maintainers are between 45 and 64 years old, and nearly 45 percent of households have children, typically of all ages. Most own confortable, single-family homes, and often fill their driveways with power boats, ATVs and snow mobiles. Their daily routine is not unlike the one their grandparents enjoyed. For leisure, New Country members like to go hunting, fishing and camping, or they'll stay home and do gardening or crafts. Know n for their deep roots in the community, three-quarters of residents are third-plus-generation Canadians; few er than one in ten is foreign-born.
60 VILLAGERS	Rank: Hhlds: Hhld %: % in Benchmark: Index:	4 1,162 4.23 2.03 208	Found typically in older, industrial neighbourhoods of midsize cities, these households consist of a mélange of singles, couples, and lone-parent families, maintainers of almost any age and over a third rooming together in non-family households. They hold a range of educations, with over half earning a high-school diploma or less, and nearly a third finishing trade school or college. Their incomes fall well below the national average, which is reflected in their pre-1960s, single-detached houses. Value Villagers, how ever, relish in their community's simple pleasures, like enjoying nature at their local or provincial parks and embracing their cultural side by attending community theatres and art galleries. Ourling is the favourite pastime of these multigenerational Canadians, and when they're not on the rink, find them in front of the TV enjoying the latest bonspiel.
25 SUBURAN SPORTS 3 LOW MARKED 3 LOW MARKED	Rank: Hhlds: Hhld %: % in Benchmark: Index:	5 1,100 4.01 3.84 104	Widely dispersed across Canada, Suburban Sports is one of the larger segments, a suburban refuge for younger and middle-aged families. Eight in ten households own a home, typically a singled-detached house or a duplex. The households are nearly evenly divided between couples and families, and maintainers range from 35 to 64, and children are of all ages. Most adults have completed high school or college and hold service sector and blue-collar jobs that provide solid, upper-middle-class incomes. No doubt, the presence of children affects the popularity of sports like baseball, basketball and swimming. Additionally, the adults like to bowl, golf and do pilates. Many enjoy watching sports, rooting for their favourite pro hockey, soccer and football teams.

Trade Area: Lethbridge, AB (CY)

### Top 5 segments represent 59.8% of households in Lethbridge, AB (CY)

45 SLOW-LANE	Rank: Hhlds: Hhld %: % in Benchmark: Index:	1 5,986 14.08 1.11 <b>1,267</b>	Slow-Lane Suburbs consists of a mix of older singles and couples living in the suburbs of midsize cities. Most maintainers are over 55, and those still in the labour force typically hold service sector and white-collar jobs. With their high school and college educations yielding middle incomes, nearly three-quarters of adults own inexpensive single-detached houses. More than three-quarters of residents are third-plus-generation Canadians, and they enjoy time-honoured outdoor activities like fishing, hunting and camping. Many have time on their hands to go to casinos, community theatres and beer, food and wine festivals. For excitement, they like attending an auto race or golf event. A prime market for traditional media, they respond to marketing messages that recognize their frugal habits.
38 SUBURBIA UNITARY OF A CONSTRUCTION OF A CONST	Rank: Hhlds: Hhld %: % in Benchmark: Index	2 5,667 13.33 2.34 570	Located in the older suburban neighbourhoods of midsize cities, Stressed in Suburbia offers a portrait of busy, working families. Households may contain couples, families with children and lone-parent families; maintainers range in age from 25 to 54; and children include toddlers and teenagers. Nearly three quarters own their homes, a mix of singles, semis and row houses. Two-thirds are third-plus-generation Canadians. With college and high school educations and middle incomes from two-wage earners, they pursue wide-ranging interests—from sports like cross-country skiing and golf to cultural activities like country music concerts and dinner theatres. These residents often drive domestic pickups, eat at drive-throughs and vacation using their campers. Mindful of saving money, many do their own home improvements and landscaping.
224 RALFERRAN	Rank: Hhlds: Hhld %: % in Benchmark: Index:	3 5,155 12.13 5.02 <b>242</b>	The lure of good jobs in the mining, oil and gas industries fueled the rise of All-Terrain Families, a suburban lifestyle found mostly in Alberta. These younger and middle-aged households are among the nation's most mobile, with many having moved recently. A majority of the maintainers are under 45 years old, and most of the children in these households are younger than 14 years old. With mixed education backgrounds, the adults here earn upper-middle incomes and own single-detached, semi-detached or row houses. In their free time, these families have high rates for fishing, camping, playing teamsports and going to amusement parks, zoos and aquariums. For parents, weekend entertainment may involve a sports bar, rock concert or favourite steakhouse.
CONTRACTOR VILLAGERS	Rank: Hhlds: Hhld %: % in Benchmark: Index:	4 5,013 11.79 2.03 580	Found typically in older, industrial neighbourhoods of midsize cities, these households consist of a mélange of singles, couples, and lone-parent families, maintainers of almost any age and over a third rooming together in non-family households. They hold a range of educations, with over half earning a high-school diploma or less, and nearly a third finishing trade school or college. Their incomes fall well below the national average, which is reflected in their pre-1960s, single-detached houses. Value Villagers, how ever, relish in their community's simple pleasures, like enjoying nature at their local or provincial parks and embracing their cultural side by attending community theatres and art galleries. Ourling is the favourite pastime of these multigenerational Canadians, and when they're not on the rink, find them in front of the TV enjoying the latest bonspiel.
O P     BOOMER BLISS       Image: State of the s	Rank: Hhlds: Hhld %: % in Benchmark: Index:	5 3,582 8.43 1.18 <b>715</b>	Boomer Bliss consists of older couples and families found in suburban neighbourhoods surrounding many large cities. Nearly two-thirds of maintainers are over 55 years old, and households show an increasing shift towards retirees. With their university and college educations, those still employed hold white-collar positions. Their upper-middle-class incomes allow them to own confortable single-detached houses graced with pools and patios. Many have paid off mortgages and show little interest in leaving their empty nests. They take advantage of their proximity to both city centres and small towns, enjoying the arts—theatre, art galleries and city parks—and outdoor activities like golfing and boating. Going out may mean dinner at a pub, sports bar or casual family restaurant.
